DETAILED ACTION

This Office action is in response to the amendment filed November 9, 2005 in which claim 8 was amended.

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-14 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dijk in view of Hill for the reasons of record.
3. Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Dijk and Hill as applied to claims above, and further in view of Chu for the reasons of record.
4. Applicant's arguments have been fully considered but they are not persuasive.

Applicant argues that Dijk does not teach or suggest the crosslinker compositions of the present invention wherein ratios of monomer, oligomer and imino content are as set forth in claim 1. Applicant argues that there is no motivation to combine the references.

The examiner respectfully disagrees. The examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case,

Dijk teaches a crosslinker composition of monomeric and oligomeric components such as set forth in the present invention. Dijk teaches that the composition contains that there is less than 0.4 % imino groups. Hill teaches crosslinker compositions that are similar to those of Dijk and Hill teaches that such compositions contain 62% monomer, 23 dimer and 15% trimer and higher oligomers.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cephia D. Toomer whose telephone number is 571-272-1126. The examiner can normally be reached on Monday-Thursday.
